Re: United Community Center Schools

Thank you for participating in the Milwaukee Health Department COVID-19 Site Visit on Monday, August 31st. The purpose of this letter into inform you that United Community Center Schools is approved for reopening on September 8, 2020.

As a review, our team received tours of both the UCC Preschool building and the Bruce Guadalupe Elementary School. Representatives included schools administration as well as maintenances and cleaning leadership. We were able see all common areas, as well as some classroom set ups in each building. We are pleased with the additional mitigation steps that UCC has taken to decease the spread of COVID-19 which include separate cleaning staff for each building and the transition of the staff break room into the isolation room.

Thank you for your continued diligence in fighting this pandemic as well as your corporation with the Milwaukee Health Department. If you have any additional questions, please feel free to contact Marlaina Jackson, Deputy Commissioner at majacks@milwaukee.gov

Sincerely,

Jeanette Kowalik, PhD, MPH, MCHES
Commissioner of Health
